Finally, there’s an LMS that delivers advanced reporting to learning. With ExpertusONE, you can access business-critical intelligence on-demand and in real-time. Plus, since reporting’s built into our LMS, there’s no need for expensive third-party tools!

**Sophisticated Reporting Made Simple**

- Fast Report Generation
- Innovative Wizard Interface
- On-demand, Real-time Access

ExpertusONE Insights is revolutionary, simple to use reporting tool that’s never been seen in a LMS before now!

It achieves the fastest and easiest report generation – five clicks or less – for managers, learners and admins. And its easy to use wizard interface reduces the users' learning curve, saving them valuable time.
Key Features & Benefits

Quick, Easy, Meaningful Reports
ExpertusONE delivers such fast and meaningful reports that external reporting tools become obsolete

- Learners, managers and admins generate reports in five clicks or less
- Ensures real-time, on-demand access to business-critical information, including: individual learning progress, knowledge asset demand, social learning level/quality and other key analytics
- Can export all reports to Excel

Advanced Compliance Analytics
Sophisticated design and consolidated data within the ExpertusONE LMS delivers best-in-breed compliance reporting and analytics

- Gives managers quick/easy access to compliance reporting info, making it easy for them to be part of the compliance process
- Dedicated compliance analytics mobile app let admins and managers run reports on-the-go and get real-time statistics to ensure learners stay compliant
- Also offers report scheduling to automatically run reports and send email notifications at a set day, time or interval

Innovative Wizard Interface
ExpertusONE’s intuitive wizard interface eliminates the users’ learning curve, saving them valuable time

- Simply drag and drop desired learning entities, then select desired fields
- Instantly create custom reports of any design or complexity pulling from any/all LMS data

ExpertusONE makes reporting a snap for your entire learning organization. Whether a learner needs to run a quick ad hoc report, an admin needs to generate a complex, custom report or a manager needs to export a report to Excel, all it takes is a few quick clicks… and they’re done!
