

ExpertusONE Gamification

ExpertusONE Gamification creates a fun, competitive atmosphere where learning thrives and collaborative actions are rewarded. Gamification is fully integrated into the platform, so you can easily nurture and reward the right learning behavior, while giving learners an engaging way to progress through their training programs and encourage knowledge sharing.

Motivate and Engage Learners

With ExpertusONE Gamification, you can:

- **Incentivize learning:** Reward learners for the right behavior with points, badges, and colleague recognition. Badges and points can even be customized to align with your company's branding and initiatives to further maximize training adoption.
- **Motivate and celebrate learners:** Foster healthy competition by displaying a leaderboard with top-ranking learners on your company's training homepage. This is also a great way to acknowledge those learners who have gone above and beyond with their commitment to training.

Make Compliance Engaging

Turn mandatory training into interactive, gamified experiences with real-life scenarios.

Promote Social Learning

Boost collaboration with peer recognition, sharing, and chat tools.

Enable On-the-Go Training

Gamification integrates with the mobile app for anytime progress tracking and peer comparisons.

Feature Highlights

Gamification done right encourages a positive learning culture that can increase productivity, job satisfaction, and performance. ExpertusONE Gamification includes all the features you need to deliver an exciting learning & training experience, including:

- **Customization:** Base point systems on learning agendas, align your badges and icons with corporate branding, and configure badge point thresholds and badge values/names to reflect key organization drivers.
- **Easy-to-use reward system:** Learners can earn points for collaboration, compliance, and activity, which can then be redeemed for badges, allowing learners to compare their performance with colleagues.
- **Social tools:** Learners can share any catalog item with peers and colleagues with just a click and communicate with peers, instructors, and admins through access-controlled discussion forums and direct messaging. It's also easy for learners to quickly rate training, evaluate course and instructor value, and conduct rating-based searches.
- **Robust reporting:** Track the effectiveness of gamification initiatives through ExpertusONE Insights, our built-in learning analytics and reporting tool, or easily export gamification data into other analytics programs as needed.
- **Integrations:** ExpertusONE Gamification can easily be integrated with third-party redemption systems to ensure a seamless LMS experience for both admins and learners.
- **Learn anywhere, anytime:** All gamification and social features are fully supported in ExpertusONE's mobile app.
